SUMMARY

Software developer with 1+ year of experience building responsive web applications. Proficient in full-stack development using React.js, Node.js, Java, and SQL. Skilled in designing user-friendly interfaces, optimizing performance, and delivering high-quality software in fast-paced startup environments. Collaborative team player passionate about continuous learning and innovation.

EXPERIENCE

Software Development Engineer, *FINOLITY CONSULTANCY PRIVATE LIMITED*   06/2024 – 05/2025
Patna, India
- Designed and implemented full-stack web solutions using React.js, Node.js, and WordPress.
- Developed responsive user interfaces and dynamic features to improve user engagement.
- Optimized website performance by refactoring code and reducing load times, ensuring seamless user experience.
- Collaborated with cross-functional teams (designers, QA, and backend developers) to deliver client-ready products on schedule.
- Took ownership of project modules, identified and resolved bugs, and maintained high code quality.

Frontend Developer, *FINOLITY CONSULTANCY SERVICES*   01/2023 – 06/2023
Haryana, India
- Built clean, responsive UI components using React.js and reusable code libraries.
- Managed application state and integrated data flows using modern React state management (e.g., Redux/Context API).
- Improved website performance through code optimization and asset management.
- Worked closely with UX/UI designers and backend developers to ensure consistent design and functionality.

EDUCATION

Bachelor of Technology in Data Science, *Maharishi Markandeshwar University*   08/2020 – 05/2024
(GPA: 8.0/10)
Haryana, India

SKILLS

Languages & Frameworks
: Java, Javascript (ES6+), React.js, Node.js, Express.js

Databases
: SQL (MySQL), MongoDB

Web Development Tools & Technologies
: HTML + HTML5, CSS3, WordPress, REST APIs

Tools & Technologies
: Git, VS Code, Eclipse, Agile Methodologies

ACHIEVEMENTS & ACTIVITIES

Peer Tutor   01/11/2023
Conducted 10+ offline sessions for over 50 beginner-level students, covering core Java programming and Data Structures.

Hackathon Finalist, Poornima University (Jaipur)   01/01/2023
Ranked in top 10 for building an innovative software solution under 36-hour challenge.

PROJECTS

HighQclasses – Modular E-Learning Platform, *React.js, Node.js, Mysql*   03/2024 – Present
HighQ Classes – Educational Website Overview
Built a simple, easy-to-use web app for teachers to manage student details, batch assignments, and fee tracking. It helps educators quickly filter students based on fee status and organise batch information without the hassle of paperwork. Designed to save time and make classroom management more efficient.
Key Features:
- Student and batch information management
- Fee completion tracking and filtering
- Responsive and user-friendly interface for ease of use
- Built with scalability and performance in mind

E-learning live project, *React.js, Node.js, SQL*   01/2023 – 06/2023
- Developed a modular e-learning platform enabling students to purchase courses via secure payment integration.
- Implemented a robust backend with Node.js and MongoDB to manage user accounts, courses, and transactions.

GS Trucking Web App, *React.js, Mysql, Node.js*   02/2022 – 04/2023
Built a full-stack logistics management system to help GS Trucking manage drivers, trucks, and delivery routes. Developed a responsive admin dashboard, integrated REST APIs, and managed data using MySQL.
Responsibilities:
- Built a responsive and user-friendly admin dashboard for real-time tracking and truck-driver assignment.
- Developed and integrated REST APIs to perform CRUD operations on drivers, trucks, and route data.
- Managed database schema and queries using MySQL for storing logistics-related data.
- Implemented secure communication between frontend and backend using Fetch and Express middleware.
- Improved logistics efficiency by enabling admins to monitor deliveries from source to destination.

CERTIFICATIONS

Java - HackerRank
- Certified in core Java concepts and object-oriented programming.

ReactJS - Infosys Springboard
- Completed training in building dynamic user interfaces using React.

SQL – HackerRank
- Certified in writing queries, joins, and managing relational databases.
